THE LION'S WRATH.
THE BOMBARDMENT OF ALEXANDRIA
Threatened by Admiral Seymour as soon as the
British Residents are in a Place of Safety.

ALEXANDRIA, July 6.—Raghib Paşa, President of the Council, received a telegram from the Sultan that the British fleet would bombard the forts unless work on them was stopped. The Sultan holds the Khedive and the Ministry responsible for

that the Ministry had already telegraphed to Constantinople that demonstrations had been made, in consequence of which the Sultan's permission to resume work was asked. Pending the Sultan's reply no definite resolution has been adopted. Work on the fortification continues. Admiral Seymour delays formally demanding

London, July 6.—A dispatch from Alexandria this afternoon states that Admiral Seymour sent an ultimatum to the authorities, demanding the destruction of the arsenal at Arabi Pasha is supplying arms to the natives.

The constitution of the first army corps is now settled. Fifteen thousand men of the corps will go from England to Egypt and the rest from India.

A correspondent at Paris states that the Cabinet has considered the instructions to be given to Admiral Conrad, commander of the French fleet, in view of the possibility of the English fleet bombarding the defences at Alexandria. It is understood

HANDLERS OF FREIGHT.
The Madamam Case—End of the Strike
Approaching.

ginning of the freight handlers' strike. It is believed the application means that the railroad companies intend to accede to the demands of the strikers in the meantime and render litigation unnecessary, the strikers being determined and the shippers meaning to compel the companies to carry.

ward to the strike alongshore took place yesterday that will probably be the "beginning of the end" of the deadlock which has existed during the past two weeks. Whether this change was in favor of the strikers or of the railroad companies it seems difficult at present to say. The fact is that twenty of the old hands were put to work yesterday morning at pier 8, New Jersey Southern railroad freight depot. A visit to

were at work, handling the freight in a manner very different from the way in which the work has been done of late. The members of the Italian colony who have been employed on this pier during the past ten day, and have made it their home were discharged this morning. They were found on the pier, assembled in a circle about one of their number, a tall swarthy fellow, seemingly their

ignation meeting over their sudden discharge from work, but the presence of an extra number of policemen doubtless had the effect of confining their anger to words. Superintendent Finch was said to be out of town, and the different foreman declared that they did not know whether the men were to be paid at the old rates or new rates. One of the old hands at work, when asked about it, said that they were

ence displayed on all sides and the presence of extra policemen both on the pier and on the street in the neighborhood served to cast a shadow of doubt over the statement. Nearly 100 of the strikers were on the Park side of Battery place. None of them seemed to know anything of the new prices having been granted, nor about the old men having gone to work at pier 8. Encouraging Crop Reports.

Washington, July 6.—The advice of the Agricultural Department about the crops are of a very encouraging character from every section of the country. The wheat and oats crop are turning out even better

ports in regard to corn are improving every day. In the main, it is coming on rapidly and most favorably in spite of the backward start. The return of the grass crop show it to be unusually heavy.

According to the English Definition.
LONDON, July 6.—At a meeting of the amateur rowing association yesterday the committee passed a resolution declaring

ing the Hillsdale crew as amateurs in accordance with the English definition of the term, and they cannot undertake to advise the acceptance of a challenge from them.
